

Physics labs will start the week of August 25.

Students will not be allowed into the lab if they do not have a current lab manual and a blue lab card.

2211 and 2212 students must also have a bound quadrille ruled notebook. Unprepared students may not make up the lab at another section and will receive a zero grade for that week.

Order and pay for manuals at www.ThePrintShopAtlanta.com There are two ways to get manuals. The manual can be shipped to your home at no cost or printshop representatives will deliver manuals at the second meeting of your class if you order them in time. Lab cards and notebooks may be purchased at the Park Place, Georgia, or Georgia State bookstores.

For more information check the lab website at:
