

# Summer Research

*Department of Physics & Astronomy  
Georgia State University*

**Spend the summer getting paid to learn hands-on skills in physics or astronomy!**

**Research Topics Include:**

- Astronomy: Extragalactic, Stellar, Exoplanets, Solar, Instrumentation.
- Physics: Condensed Matter, Nuclear, Atomic, Biophysics, Neurophysics, Education Research.

Pay starts at \$15.00 per hour for up to 40 hours per week, and research positions generally run for ten weeks from late May to early August.

Astronomy applicants are automatically considered for the Raghavan Astronomy Student Fellowship (two awarded per year).
